PROFESSIONAL SUMMARY

Frontend Engineer with 5+ years of experience building high-performance web and mobile applications with React, Next.js, Vue, Angular, and React Native. Specialized in real-time systems (WebSockets), payment integrations (Stripe, CCBILL), and scalable whitelabel / multi-tenant architectures. Delivered 15+ production projects across fintech, iGaming, e-commerce, and AI-powered platforms, working both independently and in high-performing teams.

TECHNICAL SKILLS

Frameworks & Libraries: React, Next.js (App Router / RSC), Vue.js (2/3), Nuxt.js, Angular, React Native, Expo

Languages: TypeScript, JavaScript (ES6+), HTML5, CSS3

Styling: Tailwind CSS, SASS/SCSS, Styled Components

State & Data: Redux, Zustand, Pinia, Vuex, TanStack Query (React Query), Context API, REST APIs, WebSockets (Socket.io)

Testing: Jest, Vitest, React Testing Library, Playwright

Integrations: Stripe, CCBILL, Auth0, Google OAuth, Google Maps, Firebase, PSPDFKit

Backend (working knowledge): Node.js, NestJS, Laravel/PHP, MongoDB, PostgreSQL, MySQL

Tools & Methods: Git, GitHub, Bitbucket, Figma, Postman, Jira, Agile/Scrum, SOLID principles

PROFESSIONAL EXPERIENCE

Mipto Tech — Frontend / Web & Mobile Developer

2021 – Present | Remote

Build frontend solutions for international clients within a software development studio. Selected projects:

- **Ohdear Xtra (Creator Platform):** Developed a content-creator subscription platform with live streaming, stories, and advanced real-time chat. Integrated Stripe and CCBILL payments plus a URL-based whitelabel system, and optimized the feed with virtualization. *(React, TypeScript, Firebase, NestJS, WebSockets)*
- **Globuco (Mobile Marketplace):** Developed and published a React Native app to Google Play and the App Store connecting users with manufacturers through real-time chat, Google Maps geolocation, Google OAuth, and Stripe payments. *(React Native, NestJS, WebSockets)*

- **Devactory (AI Dashboard):** Built a document-translation dashboard (PDF, DOCX) combining AI translation with human review, a wallet / word-limit system, Auth0 role management, and Stripe subscriptions. *(Angular, NestJS, Auth0, Stripe)*
- **Auto Sensei (Automotive Platform):** Implemented dynamic PDF viewing and signing with PSPDFKit, live performance charts, and real-time dealer-to-dealer notifications over WebSockets. *(Vue 3, Pinia, Tailwind, Socket.io, Chart.js)*
- **Live Sports, CenterBet & Centerhorses (iGaming):** Built live sports- and horse-betting platforms with real-time odds, multi-combination bets, digital wallets, and multi-client whitelabel templates, using a layered modular architecture that separates UI from business logic. *(Nuxt.js 3, Vue 3, TypeScript)*
- **Enterprise CRM v2.0 (Frontend Ecosystem):** Contributed to a large-scale, multi-module enterprise CRM for marketing and call centers: lead management with per-channel conversion tracking, an integrated Kanban board, rewards and raffles, reporting and billing, plus role-based workspaces and dynamic navigation built for frictionless scalability. *(React, TypeScript, Material UI, Vite)*
- **Shareity (Social Web App):** Developed a social platform for challenges with a TikTok-style infinite-scroll video player, Socket.io chat, admin dashboard, and role-based permissions. *(Vue, Nuxt.js, React Native)*
- **Page Everyday (Premium E-commerce):** Delivered a high-end store with GSAP scroll animations, a custom cursor, Canvas particle effects, and an internal analytics dashboard. *(React, Firebase, GSAP)*

Additional projects: SikerApp (motorcycle sales & financing) and a multi-tenant SaaS platform with isolated databases per company.

BetConnections — Web & Mobile Developer

2019 – 2020 | Remote

- Built a whitelabel sports-betting platform enabling clients to customize their own sites, with per-client product and feature parametrization driven from an admin panel and API configuration. *(Vue.js, Tailwind CSS)*
- Implemented roles and permissions, dynamic reports, and database-driven queries.

PERSONAL PROJECTS

- **Fluctua — Personal Finance App:** Designed and built a cross-platform mobile app to track expenses and compare product prices across stores, featuring interactive charts, offline-first local storage (SQLite + Drizzle ORM), biometric authentication, push notifications, and PDF report generation & sharing. *(React Native, Expo, TypeScript, Zustand, NativeWind, Drizzle ORM)*

EDUCATION

Associate's Degree in Computer Science — Técnico Superior Universitario (TSU)

IUTA — Instituto Universitario de Tecnología de Administración Industrial

LANGUAGES

Spanish (Native) | English (Intermediate reading/writing; conversational level improving)
